SKILLS

Backend Development

PHP, Laravel, Inertia JS, REST API, Payment Gateway

Frontend Development

Vue JS (Nuxt), React JS, Modern UI libraries.

DevOps & Infrastructure

VPS, Nginx, CI/CD (GitHub Actions/GitLab CI), Deployment, Linux Server Management

EXPERIENCE

Fullstack Software Developer

Creative Tech Park | Laravel & Vue.js | Dec 2023 – Present

- Developed and maintained a variety of web applications using Laravel and Vue.js & Nuxt.js.
- Contributed to projects across multiple group companies, including:
- **CRM Systems** – Designed and implemented robust modules for customer management and analytics.
- **E-commerce Platforms** – Built dynamic product listings, checkout systems, and vendor management tools.
- **Learning Management Systems (LMS)** – Developed user dashboards, course management, and content delivery features.
- **Informative Websites** – Created responsive and SEO-friendly corporate and organizational websites.
- **Project Management** – Independently managed several Laravel projects, including client communication and project delivery.
- **Team Lead** – Frequently led small development teams, providing code reviews, task assignments, and technical guidance.

Frontend Developer

ultraDevs | HTML, WordPress | Jan 2023 – Dec 2023

- Specialized in building responsive HTML templates for various client websites and **ThemeForest** submissions.
- Worked closely with clients to deliver high-quality frontend implementations for custom **WordPress themes and plugins**.
- Translated design mockups into clean, semantic, and reusable HTML/CSS code.
- Contributed to multiple commercial WordPress projects by integrating frontend components into dynamic environments.
- Ensured cross-browser compatibility, performance optimization, and pixel-perfect accuracy in all deliverables.

HTML Template (Zirox)

Approved on ThemeForest.

Single-Vendor E-commerce

Laravel, Vue JS, Payment Gateway, Courier Integration

Informative Website

Laravel, Vue JS

Learning Management

Laravel, Nuxt JS, Payment Gateway

Property Buy & Sell

Laravel, Vue JS, Google Map Integration

EDUCATION

HSC

Haji Jasim Uddin Collage, pabna.

SUMMARY

Full Stack Engineer with hands-on experience architecting and deploying scalable web applications using Laravel and modern frontend frameworks (Vue/Nuxt, React). Built and maintained SaaS, multi-vendor commerce, CRM, and enterprise systems with integrated payment and infrastructure automation. Experienced in VPS environments, CI/CD workflows, and technical leadership across multiple production projects.

Open Source & Technical Contributions

- Developed reusable authentication package for Laravel Sanctum integration.
- Built modular Vue components for scalable SaaS applications.

Open to full-time onsite, remote, or hybrid opportunities in product-focused teams.
